Experiences & Requirements

HZSK/INEL

MTAS Workshop, Meertens Instituut, Amsterdam, 25./26.09.2017

Anne Ferger, Tommi Pirinen, Daniel Jettka HZSK / INEL, Universität Hamburg

HZSK Infrastructure

Search facilities

EXAKT (Java, Desktop): EXMARaLDA corpora

ANNIS

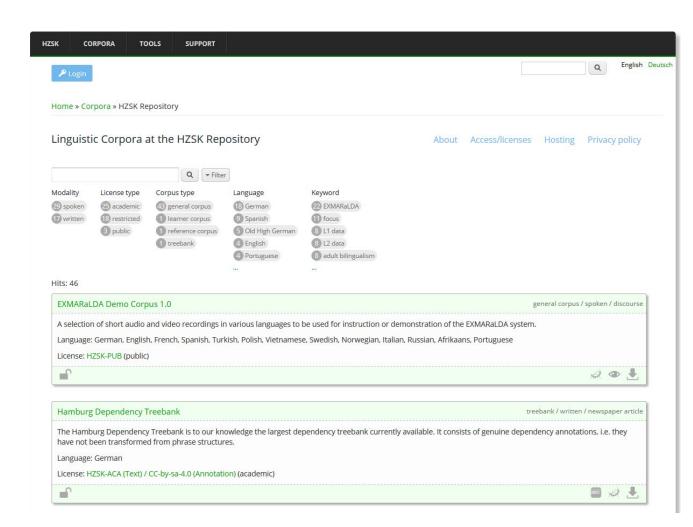

SRU w/ MySQL: EXMARaLDA corpora (via CLARIN FCS)

Solr: CMDI metadata

DGD search (online): AGD corpora

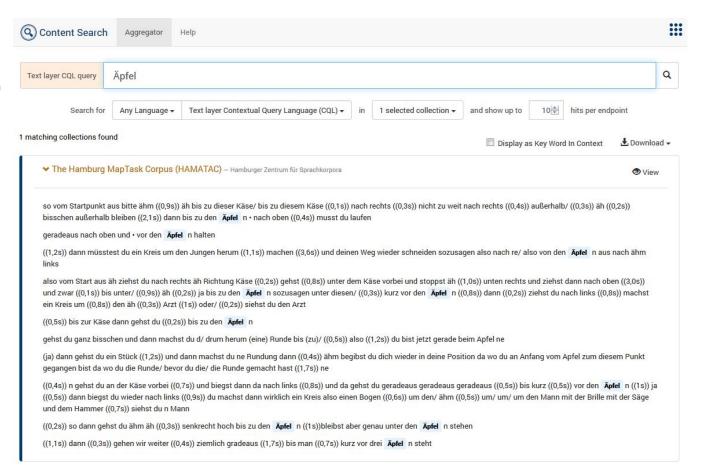

HZSK Repository

(Solr with CMDI)

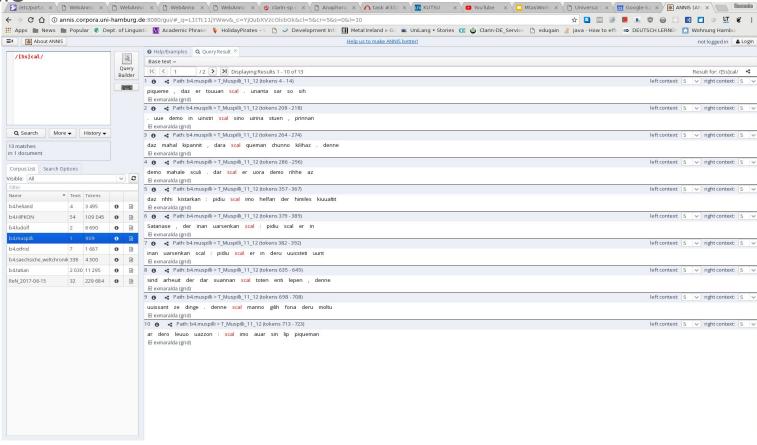

SRU

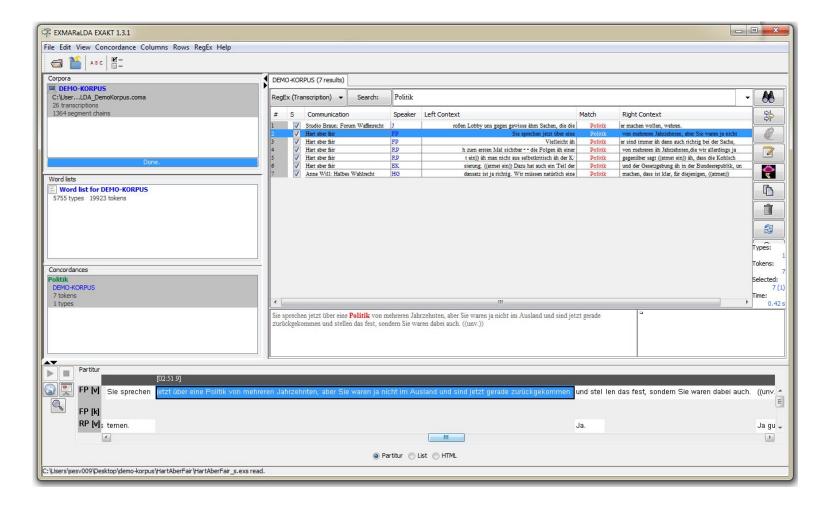

(CLARIN Aggregator)

ANNIS

EXAKT

HZSK/INEL Requirements

- Integration with Fedora/Islandora
- Audio/Video support (GUI)
- ISOtei
- CQL GUI libraries
- CLARIN requirements:
 - a. FCS integration
 - b. Shibboleth integration

User Requirements

- annotations following other annotations in different tiers
- sentence containing different annotations anywhere
- easy GUI
- KWIC table output
- musical score or other view of transcript at the match
- audio and video playback of match
- export or save search results

HZSK/INEL Experiences with Mtas

- relate the original word.id with the match (for jumping back into the transcriptions) ✓
- specific features of oral corpora (possibility to get the timepoints where the match can be played back)
- system requirements (re: sandbox installations)
